

CHAPTER SIX - NATIONAL INTEREST ELECTRICAL TRANSMISSION CORRIDORS

6.0 Introduction

Transmission corridors are usually located on easements that Idaho Power acquires from private landowners. There are no plans to implement any electrical transmission corridors that would affect the city of Payette.

6.1 Goals, Objectives and Strategies

GOAL 1: Coordinate with providers to continue and to enhance the reliable delivery of electric power and natural gas to the city.

OBJECTIVE 1: Ensure that a sufficient supply of electric energy is available within the region.

STRATEGY 1: As shown on the map above, there are no plans to implement any electrical transmission corridors that would affect the city of Payette.
